WENT TO THE PARK TO DIE.

YOUNG THEODORE KOERNER FOUND WITH A BULLET IN HIS HEAD.

A Revolver Still Clutched in His Hand When Discovered-He Had Previously Tried to Open a Veln in His Wrist-His Rela-Unable to Explain His Suicide-Well Dressed and Seemingly Happy.

Park Policeman Coughlin, while on duty in Central Park shortly after 8 o'clock this morning, was startled by the sound of a pistol shot about two hundred feet from the boat-house.

Running hastily in that direction, he discovered the body of a well-dressed young man, about twenty years of age, with blood flowing from an ugly bullet hole just over the right ear. The weapon, a British bulldog revolver of 32-calibre, was grasped in the right hand.

The Park ambulance was quickly summoned, but the young man was dead before

its arrival. From letters found in his pockets it was ascertained that he was Theodore Koerner, of 431 East Eightieth street. A policeman sent to that address returned shortly with the suicide's stepfather, Ottoman Dietz. The latter was completely overcome by his step-

Batter sact.

He could give no reason for the suicide.

He said Theodore had returned home from
business last evening and appeared in good

business last evening and appeared in good spirits.

He went out after supper, returning at a late hour, and arose as usual this morning, before any one else was awake, prepared his own breakfast, and started, apparently, for his place of business, at 109 Grand street, where he was employed as stock clerk by Berhard & Ulman.

It was found that he had attempted to open the large vein of his left wrist during the night.

His fellow-employees were surprised to learn of his death and could assign no cause for the suicide. A month ago he remained away from the store for about a week, saying that he was suffering from nervous prostration and the doctor had ordered absolute

quiet.
The Coroner granted a permit to remove the body.
A gold watch chain was attached to his vest, but there was no watch at the end of it. He was dressed in the latest style and wore a light spring overcoat, with a flower in the

buttonhole.

A letter was found his pocket from a John C. Litman, postmarked Cincinnati, O. It contained no clue to the motive of the suicide, but referred only to some ball tickets, with a peculiar remark about "Koerner's girls."

Koerner's stepfather was unable to say whether the young man had had any love trouble. He made no complaints at the store.

The story they told is that last night Cianchetta called together all the unemployed Italians he could find in Mulberry street, numbering more than a hundred, and told them he had a good job for them all at Melrose. It would be necessary for them to pay 75 cents for tickets to get there, he said.

They all bought tickets and Cianchetta led them up to the Grand Central Depot, where he deserted them. When they attempted to board a train they were told their tickets were for the promenade on the Brooklyn Bridge, and worth one cent each. The Italians went to Banker Lordi, 67 Mulberry street, for advice and were told they

THE EVENING WORLD newsboy nine, con stituted nearly as it will be when it faces the Detroit champions, stepped into the diamond for the first time this morning. Washington Park, Brooklyn, was the scene

In the first inning The Evening World's "pony" battery, Reilly and Donigan, occupied the points, and Brooklyn retired without a run. Donigan was so hurt in that inning, however, that the battery was changed, Bechtel and Myers going in to finish the game.

TOBACCO AND HEART DISEASE. ome Unpleasant Truths for Hard Smokers

Zieber before the German Medical Congress, the excess sive use of tobacco produces certain diseases as surely a a hot iron will produce a burn

According to Dr. Zieber, who is not an anti-lobace crank (using the weed in moderation himself), the effect of tobacco on any 100 men is about as follows: On 20 per cent, a rank poison, and should never be used in any form, producing on such men neuralgic spasm of the heart, weak action, fainting dizzy spells, confusion of mind, dyspepsia, &c., &c.; on 30 per cent., nervousness, palpitation of the beart, giddiness, dyspepsia, &c.; on 20 per cent., dyspepsis and heartburn; and in 10 per cent., no evil and some good effects.

His research and experiments prove that excess in tobacon produces thousands of cases of heart disease, makes multisudes of dyspeptics, sauses many sudden deaths from Neuralgic Spasm and Faintness of the Heart (Angina Pectoria), produces cancer of the mouth, throat and tongue, extreme nervous exhaustion and bloodlessness of the brain and spins, cancer of the stomach and bowels and abscess of the liver.

o poisoning by nicotine, besides being a direct and distinet curative of those diseases produced by excess in tobacco. The Avenesca of the Oat kernel is the antidotal portion. It has saved many a young cigarette smoker's life. Tobacco produces d'spepsia, S. O. E. cures it. Tobacco produces angemis or bloodlessness of the brain, faint spells, giddiness on stooping, spasm of the heart, weak pulse, headache, neuralgia of the heart, &c., &c. Scotch Oats Essence cures or counteracts all of these. If you are a heavy smoker, reader, and can't or won't quit, even with the cancer of Gen. Grant, the Crown

Prince of Germany and hundreds of others staring you in the face, at least use an antidote. It will do you no harm certainly and may, very probably will, save you your life.

Feel your pulse and see if it is as strong, bounding and robust as it should be without tobasco.

After April 15, 1988, every bottle of Scotch Oats Esence manufactured by the company will have on its pasteboard wrapper a \$10,000 forfeit guarantee that it loes not contain a particle of opium, morphine, chloral, or any other narcotic.
